PROFESSIONAL SUMMARY

Creative and detail-oriented video editor with over a year of hands-on experience producing content for a large student tech community, skilled in DaVinci Resolve and CapCut. Experienced end-to-end in event coverage, footage organization, and fast-turnaround editing for social media, combined with strong event coordination, community management, and team-leadership skills gained from managing cross-functional teams under tight deadlines.

CORE SKILLS

- Video Editing — DaVinci Resolve, CapCut; footage organization, cutting, pacing, and color/audio cleanup for social and event content.
- Content Creation — planned and produced short-form and event recap videos for consistent, on-brand community content.
- Event Coverage & Coordination — captured and edited footage from live events, managing content alongside on-ground event logistics.
- Team Collaboration & Leadership — led and coordinated cross-functional student teams, planning content and delivery under deadlines.
- Time Management — consistently delivered edited content on schedule across overlapping community and event commitments.
